Abstract (Basic): RO 108766 B

A gastro-duodenal ulcer treatment is administered daily in hourly intervals, in doses of approx. 100 ml, of a decoction obt'd. from 2.5 pts. cortex Quercus, 1.0 pt. Fadix Symphyti and 1 pt. fructus Carvi in 1000 volumes of distilled water, that contains an infusion of 2.5 pts. herba Pinpoineta, 2.5 pts. flores Calendulae, 1 pt. herba Millefolii, 1 pt. herba falviae, and 1 pt. herba Origani. Prior to main meals 100 mls of a maceration are administered to patients. The maceration comprises 5 pts. rhizoma Calami, 1 pt. semen Lini and 1 pt. fructus Hippophae in 300 ml water. The duration of the treatment is 40-48 days. The course may be repeated following 10 days cessation.
